

Permit Number: _____

Stormwater Management Permit Application Worksheet A

APPLICANT INFORMATION

Applicant Name: _____ Date Submitted: _____

Applicant Address: _____

Applicant Phone: (_____) _____ Applicant Email: _____

PROPERTY INFORMATION

Property Address: _____

Property Owner Name: _____

Property Owner Phone: (_____) _____ Property Owner Email: _____

Property Owner Address: _____

Zoning District: _____ Acreage: _____

Existing Use of Property: _____ Proposed Use of Property: _____

PROPOSED ACTIVITY

Addition of Impervious (Up to 500 sq. ft.)

New Impervious Area Associated with this Project: _____

Removal of Ground Cover, grading, filling or excavation of an area greater than 1-acre

Type of Regulated Activity: Removal of Ground Cover Grading Filling Excavation

Other: _____

Addition of Impervious (500 – 2,000 sq. ft.)

Addition of Impervious (>2,000 sq. ft.)

New Impervious Area Associated with this Project: _____

Estimated Project Disturbed Area (Square Feet or Acres): _____

Total New Impervious Area since Adoption of SWM Plan (June 17, 2014): _____

Please list the date of any previous Stormwater Management Permit Nos. for the Subject Property:

Stormwater Project Type: Level 1
Exempt

Level 2
Small Project

Level 3
Formal Plan

Acknowledgement - I declare that I am the property owner, or representative of the owner, and that the information provided is accurate to the best of my knowledge. I understand that stormwater may not adversely affect adjacent properties or be directed onto another property without written permission. I also understand that false information may result in a stop work order or revocation of any associated permits. Municipal representatives are also granted reasonable access to the property for review and / or inspection of this project as necessary.

Applicant/Owner Printed Name: _____ Date: _____

Applicant/Owner Signature: _____

Step 1: Determine the amount of new impervious area created by the proposed project. This includes any new surface areas that prevent infiltration of stormwater into the ground. New stone and gravel areas are considered impervious. Impervious areas existing before (June 17, 2014) are not included in this calculation. Use additional sheets if necessary.

Calculate NEW impervious area by completing this table.

Surface	Length (ft)	x	Width (ft)	=	Impervious Area (ft ²)
Buildings/Structures:					
1.		x		=	
2.		x		=	
3.		x		=	
4.		x		=	
Driveway		x		=	
Parking Areas		x		=	
Patios/ walkways		x		=	
Other		x		=	
Total Existing Impervious Surface Area to be Removed (if applicable)					(Subtract)
Total Proposed Impervious Surface Area (Sum of all impervious areas)					

- Level 1 - If the total new impervious surface area is **up to 500 ft²**, the project is exempt from the requirement to submit a Small Project or SWM Plan for approval. Complete Worksheet A and file this application with the Township.
- Level 2 - If project **does not exceed 2,000 ft²** of impervious and is not associated with a subdivision or land development, complete Worksheet A and steps 1 through 3, sign Owner Acknowledgement and file with the Township.
- Level 3 - If project area is greater than **2,000 ft²** of added impervious area, the project does not qualify for the "Simplified Approach."
